ABOUT:

Dr. Görkem Özgen is a patient-oriented general surgeon with many years of clinical experience, a strong academic background, and a multidisciplinary approach to healthcare. After graduating from Hacettepe University Faculty of Medicine (English Program), he completed his specialization in General Surgery at Istanbul University Faculty of Medicine. He has combined the extensive experience gained in both public and private healthcare institutions with his private practice. Focusing on obesity treatment, breast diseases, abdominal wall hernias, and anorectal disorders, Dr. Özgen aims to apply up-to-date surgical approaches based on safety and scientific principles. As of December 2025, he has been seeing patients at Private Quartz Surgical Medical Center.
